vProtect Check 360

Service package

The vProtect Check 360, carried out by our experienced service technicians, helps to identify problems before they occur, maximising your machines uptime and availability, so it is ready to operate when you are! Make an appointment for your vProtect Check 360 today and ensure that your machines are always in top condition, reliable and downtime is minimised.

Highlights

- An **experienced Aebi Schmidt service technician**.
- A **detailed technical diagnosis** of each machine based on Aebi Schmidt checklists and global field data.
- A comprehensive **service report** on the condition and any repair measures / improvement suggestions.
- A thorough occupational **health and safety check** for machine operators. In Germany, the vProtect Check 360 includes **the official UVV inspection**.

Your benefits

- **Prevention of unexpected machine downtime** and service problems.
- **Increased machine reliability and uptime**, resulting in cost savings and greater efficiency.
- **Maximise the life and value** of your machine.
- **Budget control**, you decide what work we carry out to repair your machine.
- **Best possible occupational safety** for your employees.

Our offer

Our experienced service technicians carry out a detailed technical diagnosis using Aebi Schmidt checklists and global field data. You will then receive a comprehensive service report on the condition of the machine and any repair measures. After the professional diagnosis, you decide which work we will carry out to maintain your machine.

We also offer a wide range of customised service packages, with a clear overview and no hidden costs. Contact your local Aebi Schmidt organisation to find out about the availability of service offers in your country.
