

Electric Sweeper Matchup

Compare. Choose. Conquer.

From bike lanes to boulevards, meet the sweepers that get the job done. Schmidt's electric sweepers deliver powerful performance, eco-friendly operation, and exceptional comfort.

These compact eSweepers offer two optimized options, each designed to match the size and demands of your sweeping tasks. Both sweepers are certified at the highest level with PM10 4-star and PM2.5 ratings—recognized for exceptional air pollution control and fine dust absorption.

Whether you choose the eSwingo 200+ or the eCleango 550, both deliver:

- **Heavy-Duty Power** – All-electric performance that rivals traditional sweepers
- **Ultra-Quiet Operation** – Perfect for day or night use in noise-sensitive areas
- **Comfort You Can Feel** – Ergonomic, AGR-certified seating for operator well-being
- **Clear View, Rugged Build** – Excellent visibility and durable construction
- **Zero Emissions** – Clean, quiet, and eco-forward for a greener city

eSwingo 200+

Big Performance. Small Footprint.

Our compact electric sweeper delivers impressive capacity for a machine designed to navigate narrow spaces and low-clearance areas.

With a spacious two-seat cab and the maneuverability of both 2-wheel and 4-wheel steering, the eSwingo 200+ is ideal for sweeping tight areas like bike lanes, alleys, and parking structures.

eSwingo 200+	
Hopper Capacity	2.6 yd ³
Dump Height	55"
2-Brush Sweeping Width*	55" - 114"
Height - Beacon down/up	78" - 92"
Battery Capacity	75 kWh / 400 V
Charging Time	Up to 8 hrs**
Run Time	Up to 10 hrs

* Optional 3rd brush attachment available, enabling sweeping on a second level—such as on top of a curb.

** Level II AC charger at a maximum of 11 kWh.

eCleango 550

Sweep More. Stop Less.

Designed for high-demand sweeping, the compact eCleango 550 offers a larger capacity that's ideal for covering bigger areas and allowing extended operating time between hopper emptying.

Its spacious cab comfortably seats up to three operators, combining efficiency with comfort for longer routes and more demanding collection tasks.

eCleango 550	
Hopper Capacity	5.6 yd ³ / 6.8 yd ³
Dump Height	41" - 71"
2-Brush Sweeping Width*	87"
Height - Beacon	103"
Battery Capacity	102 kWh / 400 V - 153 kWh / 400 V
Charging Time	Up to 1 hr**
Run Time	Up to 10 hrs

* Optional 3rd brush attachment available, enabling sweeping on a second level—such as on top of a curb.

** Approximate charge time using DC combined charging system at up to 80 kWh with standard 102 kWh battery.
