# STCC Cross Conveyor

Spreader

When it comes to distributing granular materials, the Swenson Tailgate Cross Conveyor STCC is one of the most efficient pieces of equipment available. The powerful and sturdy conveyor is more than capable of performing multiple jobs letting you save on labor, time and material. The STCC Cross Conveyor is an all-around performer designed for year-round use including trench filling, shouldering, road sanding and asphalt patching. The STCC Cross Conveyor is designed for Class 7 + trucks (26,000 GVW) and has a removable cover plate, belt-over chain with a heat-resistant belt rated at 350°F. Both stainless steel and carbon steel construction are available for this spreader.

## Highlights

- **Hydraulic control**
- The 102 in. trough **fits standard width dump bodies**
- Powerful 14 in. wide high-temp belt-over-chain allows most **materials to be easily conveyed**
- High temperature belt over chain conveyor provides **trouble free non-slip-, low stretch positive material conveyance**
- Hinged top cover **prevents material loss during operation** and allows dump truck to function during non-spreading operations

## Your benefits

- **Quick-detach 24 in. extension plate** can be used on either side of conveyor to **position material outside of tire path**
- Screw type gate jacks let you **adjust material output while the dump body is loaded**
- For the adjustment on the feed gates Swenson offers an **electric motorized option**
- Adjustable feed gate allows **precise material output adjustment**, even when loaded
- Dual feed gates allow **material to be discharged from either side** of the spreader

## Performance features

### Concept

The Swenson Tailgate Cross Conveyor (STCC) is a strong and versatile workhorse designed for distributing granular materials. It handles multiple tasks such as trench filling, road sanding, shouldering, and asphalt patching year-round. The STCC features a high-temp, 14-inch-wide belt-over-chain system for easy material conveyance and a hinged top cover to prevent material loss. With quick-detach extension plates and adjustable feed gates, this conveyor allows for precise material output and flexibility, making it an all-around performer in many applications. Choose the STCC to save time, material, and labor.

### Performance-Enhancing Optional Equipment

- Dual Flow Control Valve
- Control Valve Stand
- Hydraulic Hoses, Pumps and Tanks
- Custom Color Paint
- Spinner Attachment (right hand)
- Spinner stabilizer kit
- 4-foot motorized extension
- Storage Legs
- Sinner Assy (left hand)

### Materials

Sand, Salt/Sand Mix, 3/8 Chips, Shoulder Gravel, Asphalt
